4. First aid measures

First aid procedures

Inhalation

Move to fresh air. If breathing stops, provide artificial respiration. If breathing is difficult, give oxygen. Get medical attention immediately.

Skin

Wash the skin immediately with soap and water. Remove contaminated clothing. Get medical attention if irritation develops and persists. Wash clothing separately before reuse.

Eye

Flush thoroughly with water for at least 15 minutes. Get medical assistance.

Ingestion

If swallowed, do NOT induce vomiting. Get medical attention immediately. Never give anything by mouth to a victim who is unconscious or is having convulsions.

Notes to physician

Not available.

5. Fire-fighting measures

Suitable extinguishing media

SMALL FIRES: Use CO2 or dry chemical.
LARGE FIRES: Use foam.

Cool containers with flooding quantities of water until well after fire is out.

Unsuitable extinguishing media

Water may be ineffective.

Specific hazards arising from the chemical

Does not decompose up to 350 F (177 C). Carbon monoxide with incomplete combustion.

Special protective equipment for fire-fighters

Wear self-contained breathing apparatus and protective clothing.

Protective equipment and precautions for firefighters

Not available.

6. Accidental release measures

Personal precautions

Wear suitable protective clothing. Wear appropriate personal protective equipment. An appropriate NIOSH/MSHA approved respirator should be used if a mist or vapor is generated.

Environmental precautions	Dike flow of spilled material using soil or sandbags to minimize contamination of drains, surface and ground waters. Avoid discharge into drains, water courses or onto the ground.
Methods for containment	Not available.
Methods for cleaning up	Ventilate the area. Eliminate sources of ignition. Contain spill. Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal.

7. Handling and storage

Handling	Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid contact with clothing. Wash thoroughly after handling. Ground and bond containers when transferring material. Use spark-proof tools and explosion-proof equipment. Empty containers contain product residue and can be dangerous, follow all hazard warnings and precautions even after container is emptied. Keep away from sources of ignition.
Storage	Can be stored in most common storage vessels including carbon steel, aluminum, fiberglass and stainless steel. Keep away from heat, sparks, and flame. Keep away from possible contact with incompatible substances. Store in a cool dry place in accordance with 29 CFR 1910-106/NFPA 30.
Specific uses	Follow bulk handling and storage procedures as noted above.

8. Exposure controls / personal protection

Engineering controls	Local exhaust is recommended. Mechanical - may be necessary if working at elevated temperatures or in enclosed areas.
Personal protective equipment	
General	Observe good industrial hygiene practices. Avoid contact with eyes. Avoid contact with skin. Avoid breathing (heated) vapors. Boots. Apron. Eye wash fountain and emergency showers are recommended. Wear suitable protective clothing.
Eye/face protection	Goggles or face shield with goggles, dependent upon potential exposure.
Skin protection	Nitrile gloves are recommended. Dependent upon degree of potential exposure, additional personal protective equipment may be required, such as chemical boots and full protective clothing.
Respiratory protection	None required for ambient temperature, although an appropriate NIOSH/MSHA approved air-purifying respirator should be used if a mist or vapor is generated. A NIOSH/MSHA approved self-contained breathing apparatus or air-supplied respirator is recommended if the concentration exceeds the capacity of cartridge respirator. WARNING: Air purifying respirators do not protect workers in oxygen-deficient atmospheres.
Environmental exposure controls	Contact Procter and Gamble for specific Community information.
