### First aid procedures

#### Inhalation

If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. Call a physician if symptoms develop or persist.

#### Skin

Rinse skin with water/shower. Get medical attention if irritation develops or persists.

#### Eye

Rinse with water. Get medical attention if irritation develops or persists.

#### Ingestion

Rinse mouth. If ingestion of a large amount does occur, call a poison control center immediately.

### Notes to physician

Not applicable.

## 5. Fire-fighting measures

### Suitable extinguishing media

Water. Water fog. Foam. Dry chemical powder. Carbon dioxide (CO<sub>2</sub>).

### Specific hazards arising from the chemical

Not available.

### Protective equipment and precautions for firefighters

In the event of fire, cool tanks with water spray. Use water spray to cool unopened containers. Cool containers exposed to flames with water until well after the fire is out. Water runoff can cause environmental damage.

## 6. Accidental release measures

### Personal precautions

Local authorities should be advised if significant spillages cannot be contained.

### Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not contaminate water.

### Methods for containment

Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Collect spillage.

## Methods for cleaning up

Large Spills: Prevent product from entering drains. Do not allow material to contaminate ground water system. Dike far ahead of spill for later disposal. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Following product recovery, flush area with water.

Never return spills in original containers for re-use.

## 7. Handling and storage

### Handling

Avoid release to the environment. Do not empty into drains.

### Storage

Use care in handling/storage.

## 8. Exposure controls / personal protection

### Personal protective equipment

#### Hand protection

Not normally needed.

#### Eye/face protection

Not normally needed.

#### Skin protection

No special protective equipment required.
